Enrichment Tools

Trey Smith, 1/21/26

Which Tools

- Use tools with good documentation.
- Usually each tool will have an accompanying paper, check how many citations it has!
- Tools designed for Genetic and Expression data can be used for Methylation in the right circumstances.

CpG Enrichment

- EWAS Atlas: A database of EWAS results that includes a toolkit for downstream analyses.
- EWAS Catalog: A database of EWAS results, stricter standards than EWAS Atlas.
- GoDMC: A database mapping cis and trans genetic influences on Methylation.

Gene Enrichment

- GteX: A comprehensive public resource to study human gene expression and regulation, and its relationship to genetic variation across multiple diverse tissues and individuals.
- Gene2Drug: Given a therapeutic target gene, a prioritization of potential effective drugs is obtained by assessing their impact on the transcription of genes in the pathway(s) including the target.
- GWAS Catalog: A database of GWAS results.
